Subject: Rolling Knolls Additional Data Gaps Sampling

Confirmation of this email is requested.

Hi Suzy,

After reviewing the results from the Fall Data Gaps sampling, EPA has identified seven (7) additional soil and sediment samples that are needed to further delineate the nature and extent of contamination at the site. Please review the attached table and provide an amendment to the Data Gaps Sampling and Analysis Plan for Table 1 and associated Figures (4a and 4b), as appropriate. In addition, the schedule for the sample collection, data validation, and EDD submittal should also be included.

Should you have any questions or concerns regarding this email, please notify me within three days of receipt of this email.

Regards,
Tanya
